

Tottenham High School Academy, Bury, BL8 3LY - Large Area Canopy 13m x 13m

We presented to Mr David Kershaw, the estates project manager for Shaw Education Trust, a canopy proposal for the outdoor covered dining/seating area.

The requirement brief was to provide the school with a 13m square covered area leading back from the existing cabin style serving points, our practical solution was to supply two of our stylish Expert Linear Curved Roof Canopies adjoined with a central rainwater guttering system, and central support posts.

Proposed Canopy Area

Completed Installation
